

IV international in-field radon intercomparison exercise for active and passive measurement systems in different indoor environments

Dear Participant,

Here below you will find the instructions for the **exercise D** of the “*IV international in-field radon intercomparison exercise for active and passive measurement systems in different indoor environments*”.

The devices must arrive by **November 15th** to the following address:

ARPA Piemonte

Dipartimento Rischi fisici e Tecnologici,

via Jervis, 30 - 10015 Ivrea (TO)

Italy

Laboratorio radon – Enrico Chiaberto tel: (+39) 011 19681514

radon@airp-asso.it

AIRP – Interconfronto radon

You can send your parcel from **Monday to Friday** from **9.00 a.m. to 4.00 p.m.** (downloadable label for the package on the website).

Instructions:

- The shipment of the monitor to the organisation and its return are the responsibility of the participants who will be notified of the precise date to pick it up at the same address indicated above. The costs for the collection of the equipment shall be covered by the participant: any transport costs will not be paid by AIRP, including customs charges for non-EU participants.

Participants must send the label to apply on the parcel for the return shipment to radon@airp-asso.it.

- The monitor must have everything necessary for operation (power cable, battery and any spare battery).
- Please synchronise the monitor time to Central European Time CET - UTC+1.
- Be sure to set the monitor to take data at a 60-minute sampling interval; make sure the monitor has enough memory to register 30 days of measurement.
- Please include a brief instruction for the monitor (switch on the instrument, start of measurement, stop measurement, switch off ...).
- Before sending the monitor, please fill in the form at:
<https://forms.gle/vZqEfNbpN5AkVpTe7>

- The staff will not respond in the event of malfunctioning of the monitor, but will point out to the participant any anomalies found during the initial checks.
- Participants must submit all measurement data according to the instructions that will be sent when at the end of the exposure interval.

Schedule of the exercise D

Submission of the monitors	By November 15th 2024
Exposure period (approximately)	December 2024 - January 2025
Return of monitors to the participants	By the January 15th 2025
Return of the measurement results form to: radon@airp-asso.it	February 2025

For any inquiries, please do not hesitate to contact us via email at radon@airp-asso.it
